The KIP 3100 is a powerful new digital copy, print & scan system designed to provide high productivity and superior image quality at significantly reduced operational expense. Copies, prints or scans – KIP 3100 image quality makes wide format technical communications clear and effective. KIP 3100 systems are available in four main configurations to suit the needs of the most demanding printing and imaging environments:

- **Monochrome Copy System**
- **Monochrome Copy & Print System**
- **Monochrome Copy, Print and Scan System**
- **Monochrome and Color Copy, Print and Scan System**

A space saving single footprint system, the KIP 3100 features an integrated touch screen operator panel designed for easy use. Menus are intuitive and user-friendly, ensuring simple operations for everything from walk-up job queue management to monochrome & color copying and scanning.
